Easy Measure Guide

Page 2 is graph paper for sketching your kitchen layout, like the sample below.

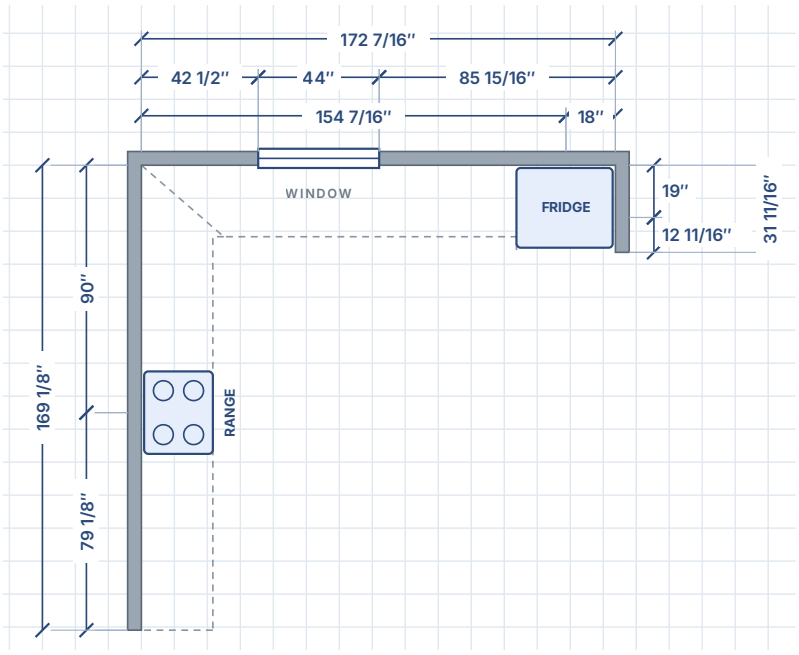

1
Sketch your room on the page 2 graph paper, like the sample.

2
Fill in your window, appliance and ceiling measurements.

3
Take some wide angle photos of the space.

4
Book a free design consult with one of our designers or go to universalfactorydirect.com/book.

Sample drawing

Wall · Window · Appliance · - - - Cabinet / counter line

Your measurements

Window Size Including trim

Width _____ **Height** _____

Fridge Size

Width _____ **Height** _____ **Depth** _____

Distance from window trim to corner

_____

Range Size

_____

Dishwasher Size

_____

Ceiling Height

_____

Take Some Wide Angle Photos
One photo per wall, labeled A, B, C...

★ **List all measurements in inches to the closest quarter inch.**

Sketch Your Kitchen Layout

Helpful things to mark on your drawing | Windows & doors (with trim) | Sink / plumbing | Range, fridge & dishwasher spots | Plugs & switches | Vents / radiators | Soffits or beams | Ceiling height

1 square = 1 foot

List all measurements in inches to the closest quarter of an inch.

Photo checklist: one photo of each wall, labeled A, B, C... to match your drawing. Within 1/4 inch is fine, we verify measurements before ordering.

Don't get hung up on making it perfect. Once your first design is done, you can go back and double-check things.
